MARCH 2020

REGISTERED CLINICAL COUNSELLORS NOW COVERED

CINUP is committed to the holistic wellness of your employees, and that includes their mental health. We are pleased to announce an enhancement **for firms in British Columbia. As of March 1, 2020, we have added Registered Clinical Counsellors (RCC)** to the list of eligible Paramedical providers.

Employees can claim RCC services as part of the combined annual maximum for providers that includes psychologist and social worker services. As always, the most efficient and quickest way to send your claims is through the *my-benefits*® app. If you have not registered for *my-benefits*, our online benefits platform, you can do so at www.my-benefits.ca.

To find a Registered Clinical Counsellor in your area, please visit the BC association of Clinical Counsellors, at <https://bc-counsellors.org/>.
